Yale University
School of Nursing

Bulletin, Series 105, Number 15, September 5, 2009, page 148:

Distribution of Graduates

Alumni records show that those individuals who have completed graduate programs offered by
the Yale School of Nursing are now located throughout the United States and in a number of
foreign countries.
Recent graduates hold positions as nurse clinicians, clinical specialists, nurse-midwives, nurse
practitioners, or nurse managers in a variety of settings. Their roles are being tested and defined
as they function in new situations. Their responsibilities may include direct patient care,
supervision and teaching of others involved in caring for patients served by their units or
agencies, interdisciplinary planning, and execution and evaluation of services.
Many graduates from former years are now in administrative, teaching, policy, and/or research
positions in educational institutions, foundations, or government.
A number hold positions as consultants in their specialty areas to public and private agencies at
local, state, federal, and international levels.
Others have assumed responsibility for management of nursing services in both public and
private institutions and agencies.
