Yale University
University Income by Source (in \$000's)
1800 - 2016

Notes:

- (a) 2016 represents amount in financial statements with tuition discount of \$280.6 million added back.
- (b) These are gifts for operating use only, from all sources.
- (c) Includes medical practice income from the Medical School, University Health Service, and others. Prior to 1980, figures in this category were included in "Other."
- (d) Includes royalties, sales of goods and services, rental income from non-students, income from special events, etc.
- (e) The following notes apply:
 - 1. In 1980, total income and other increases in funds were \$294 million. Total resources applied were \$265 million (the the difference primarily resulting from reinvestment of endowment income and the capitalization of gifts). From this amount, life income payments of \$2 million have been deducted.
 - 2. In 1985, total income and other increases in funds were \$481 million. Total resources applied were \$444 million, from which has been deducted \$3 million in life income payments.
 - 3. In 1990, total income and other increases in funds were \$721 million. Total resources applied were \$697 million, from which has been deducted \$7million in life income payments.
 - 4. In 1995, total income and other increases in funds were \$970 million. Total resources applied were \$948 million, from which has been deducted \$13 million in life income payments.
 - 5. In 2000, total includes net revenues and reclassifications of \$1,262 million plus \$81 million in tuition income offset in the financial statements by financial aid.
 - 6. In 2005, total includes net revenues and reclassifications of \$1,836 million plus \$126 million in tuition income offset in the financial statements by financial aid.
 - 7. In 2010, total includes net revenues and reclassifications of \$2,726 million plus \$221 million in tuition income offset in the financial statements by financial aid.
 - 8. In 2011, total includes net revenues and reclassifications of \$2,788 million plus \$227 million in tuition income offset in the financial statements by financial aid.
 - 9. In 2012, total includes net revenues and reclassifications of \$2,823 million plus \$243 million in tuition income offset in the financial statements by financial aid.
