Notes:

(--) indicates the Ph.D. program was not established; (**) indicates the Ph.D. program has been discontinued

^(a) This is a mandatory combined program with another doctoral program. Only students who indicated that this is their primary program are reflected in the enrollment counts.

Total enrollment (this program and the program with which it is combined) is higher.

^(b) Effective Fall 2007, the program is a semi-autonomous, interdisciplinary program within the Department of History. Students are awarded degrees in History, with a concentration in the History of Science and Medicine. Students enrolled in the program prior to this change were allowed to continue in the program and receive their degree in the History of Science and Medicine.

^(c) Effective 2010/11, Chemical Engineering and Environmental Engineering are combined.
